TECHNICAL PROFILE

Programming Languages Known
C, C++, JAVA, Visual Basic .NET

Application Packages & Tools
Microsoft Office, Adobe Photoshop/ illustrator

Web Technologies
HTML, JAVA SCRIPT, .NET FRAMEWORK

THE PROJECT I WORKED ON

i-Store Management System
It was the final year project in the college. I made it in .NET FRAMEWORK with the VB.NET language. It was totally based on Designing & Coding. I made this program in limited hours in the college premises. The motto behind developing this program was to manage the stocks of phones in mobile shops and add or remove the buyer along with generating bills.
